

## ON-TIME AND ON-BUDGET: LARGE REGIONAL HEALTH PLAN MIGRATES ITS MEDICARE ADVANTAGE PRODUCTS TO NEW CLAIMS AND ENROLLMENT PLATFORMS

### CLIENT ENGAGEMENT DESCRIPTION

A large regional health plan partnered with ATTAC Consulting Group to migrate its Medicare Advantage products to entirely new claims and enrollment platforms and insource its operations. Enrollment, claims and other administration of the Medicare Advantage and Medicare Part D products had been outsourced since initial program launch for many years. The plan had limited experience with systems or data migrations or business process required for these highly regulated government programs.

CHALLENGES	APPROACH	RESULTS
 <ul style="list-style-type: none"> <li>• No experience with migrating health plan products from a legacy environment to multiple new platforms and solution sets</li> <li>• Limited experience insourcing these highly regulated product offerings</li> <li>• Previous implementations had resulted in deferred project lists that competed with steady-state support</li> </ul>	 <ul style="list-style-type: none"> <li>• Provided a baseline model to migrate all health plan product offerings to the new claims system and support interfaced solutions</li> <li>• Enhanced internal knowledge related to supporting government programs</li> <li>• Supported enterprise-level improvements in claims, reimbursement, compliance and data/reporting</li> </ul>	 <ul style="list-style-type: none"> <li>• An on-time and on-budget migration - technically and operationally</li> <li>• Auto adjudication rate of more than 80% within 90 days of go-live</li> <li>• Very limited, short-term impact to member access and experience</li> </ul>

# Why Work With ATTAC Consulting Group?

The ATTAC team brings years of implementation experience and successful delivery to business critical initiatives.

We offer a structured yet flexible approach to each client's project management model, from waterfall to agile and everything in between

ATTAC supports project management and the full scope of implementation roles and activities, including: business subject-matters experts, compliance oversight, business, configuration, technical and data analysts, development team members, and quality assurance and testing.

We have significant expertise across all major transaction and ancillary platforms, conversions, migrations, interfaces, coexistence and runout approaches, and insourcing and outsourcing solutions.

Learn more about how ATTAC can help your plan ensure a business-centric approach to technology and implementation initiatives.
