

ACCURATE, COMPLETE AND COST-EFFECTIVE MEDICAL RECORD CODING SERVICES

ATTAC provides plans and provider groups accurate and complete medical record coding for revenue capture in Medicare Advantage, Medicare ACO, ACA, and Medicaid risk adjustment.

The quality and accuracy of our code capture is built on ATTAC's reputation as a premier national RADV auditor. Our highly trained, expert coders are supported by leading-edge natural language processing (NLP) technology. We provide on-shore and off-shore options for retrospective chart coding, concurrent coding and vendor oversight auditing.

Why Work With ATTAC as Your Medical Record Coding Partner

✔ **Certified Expertise**

Our team of AAPC- and AHIMA-certified coders has extensive experience in Medicare Advantage risk adjustment, ACA and Medicaid risk adjustment coding, as well as CDI. We audit thousands of records annually for RADV audits, and our coders deliver precise and compliant retrospective coding that meet recognized clinical and CMS standards.

✔ **Advanced Technology Integration**

We use a cutting-edge NLP computer-aided coding platform to support to our highly trained coders. Our AI-powered tools assist our coders to identify diagnoses for capture throughout the medical record.

✔ **Coding Accuracy and Quality**

Our auditing heritage drives a rigorous quality assurance processes to ensure coding accuracy, delivering outcomes you can trust.

✔ **Coding Resources to Meet Your Deadlines**

Our workflows and technology-enabled processes allow us to launch engagements quickly and deliver fast turnaround to support risk adjustment submission sweeps and other review cycles, all while maintaining the highest quality.

✔ **Full Transparency**

We provide full transparency at every stage of the coding process. Plans get access to real-time web-enabled dashboards, detailed reports and support from our expert team, ensuring you're informed and confident in coding outcomes.

✔ **Highly Trained Coders**

All of our coders are highly trained and have a deep understanding of relevant coding standards and CMS guidelines. We can apply your specific coding guidelines to your project.

✔ **Data Security and Reliability**

ATTAC is HITRUST Certified. We take protecting your data and ensuring stable operations seriously. We've built multi-layer authentication, system resiliency and redundancy into our technical environments.

✔ **Quick Coding Project Stand-up**

We're here when you need us, and we can stand up your coding project in short order — perfect for over-flow, rapid response or large coding projects.

Our Services

✔ **Retrospective Chart Coding**

We'll capture all supported risk-adjustable conditions from the member's medical records to ensure full risk adjustment and HCC capture from the provider's chart.

✔ **Chart Over-Read and Auditing**

ATTAC is a trusted risk adjustment auditor; we conduct coding audits of plan vendor coding or internally coded charts to identify possible misses and/or unsupported diagnoses.

✔ **Clinical Documentation Improvement**

ATTAC can assist with clinical documentation review and improvement efforts.

✔ **Provider Education and Training**

ATTAC's training helps providers understand the importance of accurate documentation and coding.

✔ **Compliance and Audit Support**

ATTAC provides coding assistance for mock and actual Medicare Advantage RADV audits.

ATTAC can help you achieve accurate, compliant, and efficient coding to optimize your risk adjustment revenue and improve healthcare outcomes.

Trust ATTAC's auditor accuracy for your retrospective coding projects
