

MEDICARE PART D OPERATIONS

Are you ready for a CMS audit?

Part D operations compliance continues to be a major focus for CMS audits. ATTAC Consulting Group assesses your program before an audit to help identify potential program deficiencies, remediate issues, avoid audit civil monetary penalties, and improve member service and CAHPS scores.

Our analytics, mock program audits and remediation support help you quickly identify and correct problems to ensure that Part D prescription and Medicare Advantage Part D plans meet the CMS goal “of appropriate and timely access to medications/ care to receive optimal care and achieve positive outcomes.”

ATTAC Consulting Group's Superior Analytics

Our industry-leading universe analytics identify issues with data accuracy, data integrity and timeliness, and analyze universes for potential vulnerabilities. Discovery and remediation of issues prior to receipt of the CMS audit notice enables your plan to mitigate conditions discovered during an audit.

WHY WORK WITH ATTAC CONSULTING GROUP?

We are an industry leader your plan can count on to perform operational, compliance or validation audits.
