

RISK ADJUSTMENT DATA SUBMISSION COMPLETENESS & LEAKAGE ANALYSIS

We support risk adjustment programs for health plans that offer commercial ACA, Medicare Advantage and Medicaid. We provide a comprehensive range of risk adjustment data submission consulting, analysis and auditing services including:

- ⊙ EDI gateway leakage and risk adjustment impact analysis (837I and 837P transaction reconciliation)
- ⊙ Supplemental benefit data tracing, leakage analysis and reconciliation (vision, dental, etc.)
- ⊙ Claims adjudication platform vs data warehouse and encounters processing environment reconciliation
- ⊙ Supplemental data submission data tracing, leakage and validation
- ⊙ Risk adjustment data processing compliance controls, reporting design and risk mitigation
- ⊙ Rejected and un-submitted encounter prioritization for ACA, Medicare Advantage and Medicaid
- ⊙ EDGE server and EDS submission completeness and accuracy analysis

Talk with us about how we can help you implement effective and compliant risk adjustment programs.
