

PROVIDER NETWORK MANAGEMENT

Building and maintaining effective provider networks is essential to your market competitiveness and managing costs, quality and value.

ATTAC supports all provider-related activities for managed care organizations and health plans, health systems, accountable care organizations, independent provider associations, clinically integrated networks, and large provider groups. We're experts in traditional and value-based payment models, provider data management and network operations.

We support commercial, Medicare Advantage, Medicaid, home-and community-based services, long-term services and supports, special-needs plans, workers' compensation, military programs, and dual plans for all provider types.

We're home to one of the nation's largest and most experienced network contracting teams. We've built networks in every region of the country—on-time and on-budget. In addition to the services below, we also offer interim staffing and training.
