

ATTAC ASSURANCE

Elevate Your Compliance & Operational Performance

Elevate your organization's compliance and operational performance with the ATTAC Assurance Program.

You'll get dedicated access to our compliance consultants, a team with deep expertise in regulatory guidance interpretation and operationalization, health plan compliance, fraud, waste and abuse, vendor oversight and management, and risk adjustment.

We offer two membership levels, allowing you to customize services based on your organization's unique requirements. And if you don't see a membership level that suits you, we'll build it to your exact specifications.

Ready to take your compliance to the next level? Get started with the ATTAC Assurance Program today and unlock the benefits of dedicated expert regulatory guidance and industry best practices.

Use your monthly consulting hours on any of ATTAC's core consulting services:

Regulatory Guidance Review, Feedback & Implementation Support

- ✓ Comprehensive review and analysis of current and upcoming federal and state regulatory guidelines affecting your health plan operations
- ✓ Tailored feedback to align operational processes with regulatory requirements, which may reduce risk of non-compliance
- ✓ Support to implement recommended changes including process redesign, training, and technology solutions to ensure seamless adaptation to regulatory environments

CMS Program Audit Universe Scrubbing & Error Reporting

- ✓ Thorough examination and scrubbing of CMS program audit universe data to identify inconsistencies, inaccuracies, or areas of potential non-compliance
- ✓ Detailed error reporting, coupled with actionable insights, to rectify identified issues and foster compliance and operational accuracy
- ✓ Guidance to establish or enhance ongoing monitoring and auditing processes to maintain audit-readiness
- ✓ Marketing material review

Rigorous Review of Marketing & Member Communication Materials to Ensure Compliance with CMS & State Regulatory Requirements

- ✓ Recommendations on messaging, design, and content strategy to enhance member engagement and adhere to regulatory standards
- ✓ Support to develop compliant, compelling, and effective marketing materials that resonate with target audiences and uphold brand integrity

Potential or Actual Non-Compliance Remediation & Support

- ✓ Swift identification and assessment of potential or actual non-compliance issues, followed by development of a robust remediation plan
- ✓ Support to execute remediation activities, including stakeholder communication, process redesign, and corrective action implementation
- ✓ Ongoing monitoring and support to ensure sustained compliance and mitigate the risk of future non-compliance issues

WHY WORK WITH ATTAC CONSULTING GROUP?

Expert Guidance

With the ATTAC Assurance Program, you'll have direct access to a team of experts who specialize in CMS regulations

Efficiency

The ATTAC Assurance Program provides resources that streamline compliance processes, allowing your team to focus on other critical tasks and responsibilities

Stay Ahead of Ever-changing Regulations

You'll get weekly updates on critical CMS regulations, industry trends, and best practices, ensuring that your compliance team stays informed and up-to-date with the latest developments

Compliance Confidence

ATTAC helps ensure your organization remains fully compliant with CMS regulations, enabling your team to effectively mitigate risks associated with non-compliance
